

Council Logos

Property Numbering Identification Systems are not only a valuable asset for the Home Owner and the Emergency Services in locating a property, they are also a visual representation of Council Boundaries.

At HyLyte, we offer customised Rural Property Numbering Systems.

Send us your council logo in JPEG or PDF format and we will have it made into a Reflective Decal 48mm x 60mm class 2 Delineation Sticker, to replace the plain delineator at the top of our Numbering System. Its that simple!

Once the stickers are made, we incorporate them into the Rural Property Numbering System for you.

Our Rural Property Numbering Systems are in use throughout Queensland and New South Wales, with many Councils preferring the Personalised Reflective Delineation option.

For more information on Rural Property Numbering Systems, see our web site www.hylite.com and go to our "Product Info Centre".

Let us know how we can help you. Contact our office today for more details regarding any of our Rural Property Numbering Systems, we will help you where ever we can in establishing your Council Logo for use with our Numbering Systems.
